

All Saints Preschool Social Media Photo Permission Slip

We enjoy posting photos of the children, the activities they take part in, and special events. It is a great way to document their learning. We do this on three different platforms. Please indicate bellow if you are open to having your child's picture on our website, Shutterfly and/or Instagram.

Our Shutterfly site allows parents to view, print, copy and make books of their child and their time at school if they would like. Unlike Facebook, only members of the site have access to the photos, and members must be added by ASPS. The site also provides a calendar, message boards and newsletters from the school.

Our Instagram is a private account and is an extension of the Shutterfly. Our Instagram is an easier way for parents to view photos via mobile.

The school website is where we post about our school, program activities, teachers and our mission. Please note this is a PUBLIC SITE.

___ No ___ Yes, ASPS has permission to post photos of my child on Shutterfly.
___ I would like to see the site before I make my decision.

___ No ___ Yes, ASPS has permission to post photos of my child on the ASPS website.
